

CORPORATE INFORMATION

Bassari Resources Limited is an Australian ASX-listed company focused on discovering and developing multimillion ounce gold deposits in the Birimian Gold Belt, Senegal, West Africa.

FAST FACTS

ASX Code	BSR
Issued Capital	1,639,419,474
No of shareholders	2,234
Top 20	33%

INVESTMENT HIGHLIGHTS

Mineral tenements over approximately 790km² of prospective Birimian Gold Belt, Senegal.

- Makabingui Gold Project Feasibility Study – Initial high grade open pit project of 1Mt at 5.7g/t for 171,000 oz production inventory, \$680/oz cash cost, US\$88m after tax cash flow in first three years, and expansion anticipated from underground and infill drilling of 8km Makabingui South zone.
- Makabingui Gold Project Mineral Resource (Prepared and disclosed under JORC Code 2004 and remains unchanged) **1 Moz in 11.9 Mt at 2.6 g/t gold (0.5 g/t cut-off)** :
 - Indicated: 336,000 oz in 2.6 Mt at 4.0g/t
 - Inferred: 669,000 oz in 9.3 Mt at 2.2g/t
- Makabingui Gold Project open pit JORC 2012 Probable Ore Reserve:
 - **158,000 oz in 0.86 Mt at 5.7 g/t**
- Senegal, stable democracy since 1960.
- Well located tenements in a +60M ounce gold province hosting world class deposits.
- Multiple prospects identified along 80km of partially drilled mineralised strike.

June 2016 Quarterly Activity Report

Gold developer Bassari Resources Limited (ASX: BSR) is pleased to report on activities at its gold projects in Senegal, West Africa

- **Makabingui Gold Project – Permit Update**
- **Moura Permit – Konkoutou Gold Project**
- **Corporate**
 - **Placements during the quarter raise \$515,000**
 - **\$1.776 million raised subsequent to end of quarter**
 - **Share Purchase Plan (SPP) offer opens 27 July 2016**

MAKABINGUI GOLD PROJECT – PERMIT UPDATE

Detailed negotiations with the Director of Mines and the Mines Department were completed and a draft of the Makabingui exploitation permit (Addendum No. 2) has been completed incorporating all of the agreed terms.

The draft permit was submitted to the Minister of Mines for review and in early July was submitted to the Ministry of Finance for any observations prior to the formal signing of the permit.

MOURA PERMIT – KONKOUTOU GOLD PROJECT

The Konkoutou group of prospects, located 35 kilometres north east of the Makabingui Gold Project, together, have the largest and strongest geochemical gold-in-soil anomaly on the Bassari leases (Figure 1).

Review of the recent drilling program (ASX release 22 June 2016) indicates that the mineralised structures drilled to date are part of a much larger zone of gold mineralisation occurring in a series of stacked structures in the same corridor as the Konkoutou Hill gold deposits (Figure 2).

The Konkoutou Hill deposit is the most advanced of the eight identified prospects in the Moura Permit and further field work and drilling to expand the Konkoutou gold deposit and to test the other areas is proposed.

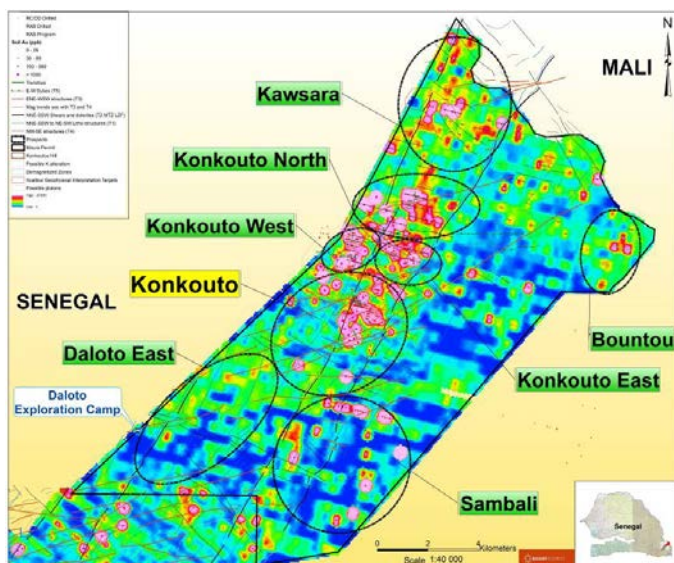

Figure 1- Moura Permit defined prospects from termite mound geochemical survey

The exploration targets identified on the Moura tenement (Figure 1) are derived from termite mound geochemical surveys using 2-3kg composite samples collected from around the mounds.

These samples are of material that is brought up from depths reaching 10m or more, and can be a good indicator of sub-surface mineralisation.

The Konkoutou Gold Deposit area targets (Figure 2) are defined using the High Resolution Airborne Magnetic and Radiometric Survey conducted in June 2012 by Xcalibur Airborne Geophysics.

Figure 2. Structural Framework derived from High Resolution Magnetic Data (Excalibur Airborne Geophysics – TMI VD1) showing Stacked Structures in Moura / Konkoutou shear corridor

In summary the geology of the Konkoutou Gold Deposit area is characterised by a regional shear zone controlling gold mineralisation (Figure 2), with a favourable lower order extensional zone related to folded and sheared structures with mafic intrusion, hydrothermal alteration (quartz carbonate associated with pyrite) and gold deposition.

Xcalibur have interpreted the gold mineralisation at Konkoutou to occur at intersections between major T2, T3 and T4 structures and that potassium and magnetic anomalies are coincident with gold mineralisation.

These features were confirmed at the Konkoutou deposit and locally, the NW-trending, steeply NE-dipping, stacked, mineralised structures extending over 450 metres on strike host the gold mineralisation, which is associated with quartz carbonate veins and veinlets with pyrite in fractured and sheared sediments comprised mainly of greywacke and shale.

It is recommended for the next phase of drilling to include a limited RAB drilling program to continue to test these targets across the Moura tenement and around the Konkoutou Deposit area. The main focus of drilling will then be for resource definition.

CORPORATE

Placements at \$0.01 (one cent) per ordinary share during the June quarter raised \$515,000 before costs to provide working capital and funds to further progress the development phase of the Makabingui Gold Project.

Since the end of the quarter the company has received commitments for a placement, of a further \$1.776 million before costs, at \$0.022 (2.2 cents) each ordinary share.

The funds raised provide working capital, funding further progress of the development phase of the Makabingui Gold Project and completion of the review of the Konkoutou Gold Project drilling results on the Moura permit.

Subsequent to the end of the June quarter, Bassari announced (ASX release 27 July 2016) the offering of a Share Purchase Plan (SPP) to eligible shareholders who will be entitled to apply for a parcel of shares ranging from \$2,000 to \$15,000 without incurring brokerage or transaction costs. The issue price of shares will be \$0.022 (2.2 cents) per share, the same as the placement referred to above.

About Bassari

Melbourne - based West African gold developer Bassari Resources Limited (ASX:BSR) has a strategic portfolio of exploration permits focused on the Birimian Gold Belt in Senegal. The permits cover an area of 790 km² with 80km of strike along the combined three contiguous permits. The permits are located within the Kenieba Inlier which is a +60M ounce gold region. Bassari's vision is to discover and delineate gold resources which can be developed into profitable operations.

Forward-Looking Statement

This release may include forward-looking statements which are based on assumptions and judgements of management regarding future events and results. Statements regarding Bassari Resources Limited plans with respect to future exploration and drilling are forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of Bassari Resources Limited that could cause actual results to differ materially from such statements. Bassari Resources Limited makes no undertaking to subsequently update or revise the forward-looking statements made in this release to reflect events or circumstances after the date of this release.

Competent Person's Statement

The information in this announcement that relates to the Mineral Resources and Exploration Results has been reviewed and approved by Mr Moussa Diba who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Diba is the chief geologist of Bassari Resources Limited and has over 20 years' experience in the industry and has more than five years' experience which is relevant to the style of mineralisation being reported upon and the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Diba consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The Mineral Resource information referred to in the announcement was prepared and first disclosed under the JORC Code 2004. It has not been updated since to comply with the JORC Code 2012 on the basis that the information has not changed since it was last reported.

Quarter ended ("current quarter")

30 June 2016

Consolidated statement of cash flows

	Current quarter \$A'000	Year to date (6 months) \$A'000
Cash flows related to operating activities		
1.1 Receipts from product sales and related debtors		
1.2 Payments for (a) exploration & evaluation (b) development (c) production (d) administration	(586)	(978)
1.3 Dividends received		
1.4 Interest and other items of a similar nature received		
1.5 Interest and other costs of finance paid		
1.6 Income taxes paid		
1.7 Other (provide details if material)	2	3
Net Operating Cash Flows	(879)	(1,577)
Cash flows related to investing activities		
1.8 Payment for purchases of: (a) prospects (b) equity investments (c) other fixed assets		
1.9 Proceeds from sale of: (a) prospects (b) equity investments (c) other fixed assets		
1.10 Loans to other entities		
1.11 Loans repaid by other entities		
1.12 Other (provide details if material)		
Net investing cash flows	0	0
1.13 Total operating and investing cash flows (carried forward)	(879)	(1,577)

+ See chapter 19 for defined terms.

Appendix 5B

Mining exploration entity and oil and gas exploration entity quarterly report

1.13	Total operating and investing cash flows (brought forward)	(879)	(1,577)
	Cash flows related to financing activities		
1.14	Proceeds from issues of shares, options, etc. (See Note below)	515	1,596
1.15	Proceeds from sale of forfeited shares		
1.16	Proceeds from borrowings		
1.17	Repayment of borrowings		
1.18	Dividends paid		
1.19	Other (provide details if material)		
	Costs of capital raising	(14)	(25)
	Net financing cash flows	501	1,571
	Net increase (decrease) in cash held	(378)	(6)
1.20	Cash at beginning of quarter/year to date	616	253
1.21	Exchange rate adjustments to item 1.20	7	(2)
1.22	Cash at end of quarter	245	245

Payments to directors of the entity, associates of the directors, related entities of the entity and associates of the related entities

	Current quarter \$A'000	
1.23	Aggregate amount of payments to the parties included in item 1.2	92
1.24	Aggregate amount of loans to the parties included in item 1.10	

1.25 Explanation necessary for an understanding of the transactions

Salaries and payments made for consulting services to directors and director related entities

Non-cash financing and investing activities

2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

--

2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

N/A

+ See chapter 19 for defined terms.

Financing facilities available

Add notes as necessary for an understanding of the position.

	Amount available \$A'000	Amount used \$A'000
3.1 Loan facilities	N/A	N/A
3.2 Credit standby arrangements	N/A	N/A

Estimated cash outflows for next quarter

	\$A'000
4.1 Exploration and evaluation	400
4.2 Development	
4.3 Production	
4.4 Administration	250
Total	650

Reconciliation of cash

Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows.	Current quarter \$A'000	Previous quarter \$A'000
5.1 Cash on hand and at bank	(Australia)245	(Australia)613 (Senegal) 3
5.2 Deposits at call		
5.3 Bank overdraft		
5.4 Other (provide details)		
Total: cash at end of quarter (item 1.22)	245 (See note below)	616

NOTE:

Subsequent to the end of the quarter, the company has received commitments of \$1.776 million for a share placement pursuant to Listing Rule 7.1 capacity for directors to place funds. In addition, the company announced on 27 July 2016, the offer of a Share Purchase Plan, (SPP) to eligible shareholders, priced at 2.2 cents per ordinary share, the same price as the placement. The SPP closes on 16 August 2016.

The company also has the ability to place up to a further 380 million shares pursuant to Listing Rules 7.1 and 7.1A remaining capacity.

+ See chapter 19 for defined terms.

Changes in interests in mining tenements and petroleum tenements

	Tenement reference and location	Nature of interest (note (2))	Interest at beginning of quarter	Interest at end of quarter
6.1	Interests in mining tenements and petroleum tenements relinquished, reduced or lapsed	Not applicable		
6.2	Interests in mining tenements and petroleum tenements acquired or increased	Not applicable		

Issued and quoted securities at end of current quarter

Description includes rate of interest and any redemption or conversion rights together with prices and dates.

	Total number	Number quoted	Issue price per security (see note 3) (cents)	Amount paid up per security (see note 3) (cents)
7.1	Preference securities			
	<i>(description)</i>			
7.2	Changes during quarter			
	(a) Increases through issues			
	(b) Decreases through returns of capital, buy-backs, redemptions			
7.3	Ordinary securities	1,639,419,474	1,639,419,474	
7.4	Changes during quarter			
	(a) Increases through issues	51,500,000	51,500,000	
	(b) Decreases through returns of capital, buy-backs			

+ See chapter 19 for defined terms.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities.** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

== == == == ==

In accordance with ASX Listing Rule 5.3.3, Bassari Resources Limited provides its list of exploration and exploitation permits with its June 2016 quarterly activities report.

Project	Country	Area (sq km)	Licence type	Granted/renewed	BSR Group % interest
Sambarabougou	Senegal	406	Exploration Permit	13-09-2013	70% (a)
Moura	Senegal	184	Exploration Permit	28-02-2015	70% (a)
Bounsankoba	Senegal	208	Exploration Permit	13-06-2013	70% (a)
Douta (within Sambarabougou)	Senegal	30	Exploitation Permit	13-08-2010	63% (b)

- (a) Bassari's wholly owned Senegal subsidiary is in joint venture with a third party which holds the permit titles.
- (b) Bassari's subsidiary which holds the interest in this permit is owned 63% by the Bassari Group.
