ASX Announcement

11 December 2013

CLARIFICATION – ASX ANNOUNCEMENT 5 DECEMBER 2013

We refer to the ASX announcement by Bassari Resources Limited (ASX:BSR) dated 5 December 2013, headed **"Makabingui Gold Project Study Team"** and make the following points of clarification:

- The Competent Person's Statement is amended to read:

  The information in this announcement that relates to the Mineral Resources and Exploration Results has been reviewed and approved by Mr Chris Young who is a Member of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Mr Young is a non-executive director and consultant to Bassari Resources Limited and has over 40 years' experience in the industry and has more than five years' experience which is relevant to the style of mineralisation being reported upon and the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Young consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

- The Mineral Resource information referred to in the announcement was prepared and first disclosed under the JORC Code 2004. It has not been updated since to comply with the JORC Code 2012 on the basis that the information has not changed since it was last reported.

- The pit optimisation study used a Mineral Resource made up of a combination of indicated and inferred resource blocks. There is a low level of geological confidence associated with inferred mineral resources and there is no certainty that further exploration work will result in the determination of indicated mineral resources or that the production target itself will be realised.
