

ASX Announcement – ASX Code: BSR**25 November 2011****BOARD APPOINTMENT**

Bassari Resources Limited is pleased to announce that it has today appointed Exploration Geologist, Mr Chris Young, as a Non-Executive Director of the Company with immediate effect.

Bassari is making appointments to the Board to build a strong team that will provide a mix of corporate, technical and operational skills to unlock the full potential of the exploration tenements the company has in Senegal. Chris Young's appointment is the first step in the process.

Chris Young – BSc (Geology and Geophysics) MAusIMM MAIG

Chris graduated from Sydney University in 1966 and has followed a career in Mineral Exploration, Exploration Management and Business Development for the past 40 years.

Chris was Chief Geologist for Mineral Deposits Limited, where he was responsible for the geological development of the successful Sabodala Gold Deposit situated in eastern Senegal and the Grande Cote Mineral Sands project located on the Atlantic coast North East of Dakar in Senegal West Africa.

Chris's exploration management background in gold and other base minerals provides the Board with skills and experience aligned with delivering the full potential of the Company's assets. He has established his own consultancy, providing geological and project development services for exploration projects in West Africa.
